

About:

I am first and foremost a husband and father. I have been married to my lovely wife, Katerina, for almost 18 years. We have three daughters and we have run the family business together for almost a decade.

I have spent the last five years interacting with the Arizona Corporation Commission (ACC or Commission). The first 4 years were spent working to remedy decades of water issues for my community. I understand first hand the trials and tribulations of dealing with the Commission from a ratepayer viewpoint. This experience places me in a unique position to fight for people like you, the customers of the utilities.

Accomplishments at the Commission include:

- Restoring water service to a local community that had their water removed arbitrarily and capriciously by the local utility
- Helping a customer who was discriminated against by a utility with her formal complaint, and ultimate settlement with the utility
- Initiating a groundbreaking effort within the state of Arizona that culminated in getting an interim manager installed into a Class A utility that had been abusing customers and ratepayer money for over 20 years, ultimately leading to the sale of the utility to a reputable water company

Current work:

- Policy Advisor to Commissioner Justin Olson
- Working alongside commission staff to revamp the Commission website to make it more user friendly and transparent
- Advocating to create a web page, using “plain language”, outlining Commissioner decisions and increasing accountability and transparency
- Contributing to possible modifications to the Commission code of ethics, eliminating the possibility of accepting money from anyone who has a financial interest in any regulated entity, at the same time preventing clean elections from being weaponized

Why I’m Running:

Arizonans need someone that is willing to stand up for them now, and in the future. Someone who will look out for their best interests proactively instead of reactively. The ACC has *ONE JOB*, as defined by the constitution, and that is to set “just and reasonable” rates, and Arizona needs a Commissioner that will keep the Commission on-track and focused primarily on this task.
